Re: Licensed Tradesmen Shortage

Dear Commissioner Fuller:

One challenge to the recovery and rebuilding efforts for those impacted by the severe weather events beginning May 15, 2025 continues to be the insufficient number of available Kentucky licensed electricians, plumbers, and HVAC technicians. As a result, I am taking the following action:

Pursuant to KRS 39A.070(3) and Executive Order 2025-095 paragraph 6, the Division of Emergency Management directs the Department of Housing, Building and Construction to allow out-of-state electricians, plumbers, and HVAC technicians who are not licensed in Kentucky to perform volunteer work in Kentucky to assist with the rebuilding efforts in Caldwell, Christian, Laurel, Pulaski, Russell, Todd, Trigg, and Union Counties which were severely impacted by the severe weather events beginning May 15, 2025.

This directive is limited to electricians, plumbers, and HVAC technicians who are licensed in their home state, in good standing with his or her licensing jurisdiction, and are offering services on a volunteer basis. Any electrical, plumbing, or HVAC work performed by an out-of-state electrician, plumber, or HVAC technician under this directive shall be permitted and inspected by a Kentucky inspector. Tradesmen who hold a license in their home state would not be eligible to perform for-profit work without the applicable Kentucky license.

Your assistance is greatly appreciated.

Sincerely,
